ABOUT ME

I am a Mathematical Science graduate and a digital candidate at Capaciti with expertise in data analytics, Python programming, and SQL. Passionate about data analytics, I hold a Diploma in Mathematical Science along with a Data Analytics Certificate. My goal is to build a career in data analytics, specializing in cleaning, analyzing, and interpreting data to drive business decisions and identify emerging trends. I am committed to lifelong learning and continuously taking on new challenges to enhance my skills. My curiosity for data drives my passion for analytics, as I enjoy uncovering insights and discovering the stories that data has to tell.

EXPERIENCE

DATA ANALYST INTERN, 06/2021 - 11/2021

Cape Peninsula University of Technology, (5 months) given data of schools by WCED (2012-2019 data)

- Conducting data cleaning, data merging, data quality control and back-ups
- Create documentation for each data request or research project.
- Performing various data analyses using statistical programs (Microsoft Excel and R).
- Comparing quintiles of school and checking the regions of which schools are located on.
- Used data for Grades 3, 6, and 9 to compare performance metrics such as thinking and reasoning skills.
- Interpreting the findings and provide conclusions.
- Compiling PowerPoint slides and present findings to stakeholders. Attending regularly scheduled staff meetings and training sessions.

GENERAL WORKER, 01/2023 – 12/2023

- SNA Civil and structural Engineering, Mthatha, South Africa
- Collecting requested samples from the road to be tested at the lab in the field section.
- Testing the road layers using Calibrated Troxler also known as nuclear moisture.
- Doing CBR and Mod calculations for the samples also making Calculations of in Compaction section.
- Testing the compaction of the existing road/ layers using dynamic penetration test known as DCP.
- Doing Slump test with Cone height of 30 cm, bottom diameter 20 cm, top diameter 10 cm.
- Making cubes of 7 and 28 days after slump tests, in calibrated cube mold.
- Crushing the cubes of 7 days and 28 days and submitting the results.

PROJECTS

Project 1: Shopping Trends

Capaciti, Timeframe: February – March 2025

- Utilized a Kaggle dataset containing shopping trend data.
- Cleaned and prepared data using Microsoft Excel; the dataset was structured in a single table with multiple attributes.
- Performed analytical queries using SQL to extract seasonal trends, customer preferences, and purchase patterns.
- Built interactive dashboards in Power BI to visualize customer behavior.
- Presented insights to stakeholders to inform decisions on regional inventory stocking, preferred payment methods, and popular product sizes, colors, and categories by season.

Project 2: Comprehensive Analysis of South African Public Universities

Capaciti, Timeframe: April – May 2025

- Analyzed a multi-table dataset (25 tables) on 25 public universities covering finances, graduation rates, and enrollments.
- Cleaned and organized raw data in Microsoft Excel, handling missing values and inconsistencies.
- Executed SQL queries on Microsoft SQL Server to extract insights.
- Developed a Power BI dashboard to visualize trends and comparisons across institutions.
- Provided insights to stakeholders regarding funding allocation, staff distribution, student enrollment, pass rates, and financial usage across universities.

SKILLS

SOFT SKILLS

- Comprehensive knowledge of the basic software such as Microsoft office.
- Have a basic knowledge of MATLAB, python and R programming language.
- Working well within a team.
- Leadership and conflict management skills.

TECHNICAL SKILLS

- Programming skills (SQL, R and Python).
- Computer skills (Microsoft Office).
- Data analysis (MS Excel, R).
- Database (MySQL, PostgreSQL, MS SQL Server)
- Data visualization (Power BI)

EDUCATION

Cape Peninsula University of Technology, Cape Town, 2022.

Diploma of Mathematical Sciences: Mathematics and statistics. *Year of Graduation 2022.*

- Mathematics.
- Statistical sciences.
- Operational research.
- Statistical Quality Control.
- Bioscience.
- Chemistry.
- Physics.

- Programming (R and Python).
- Communication Skills.
- Mathematical Science Project.

SHORT COURSE

Online: Earn and Excel
June 2024.

Course: Microsoft Excel

- Functions, range and shortcuts.
- Formatting and Conditional Formatting.
- Managing Data.
- Charts.
- Pivot Tables and Power Query and Dashboards.
- Macros.
- Intro to VBE and VBA

CAPACITI: COURSERA
DEC: 2024

COURSE: Data Fundamental for Business Enterprise

- Introduction to data warehouse, data marts Data Lake.
- Designing Modeling implementing data warehouse on SQL
- Doing Data warehouse Project for Waste Management Company for the waste they collect across Cities with hundreds of different types of trucks to collect and transport waste Using SQL queries on pgAdmin.

CERTIFICATION

- **Microsoft Excel (Advanced)** – Earn and Excel, Jun 2024 (*completed*)
- **Data Fundamentals for Business Enterprise** – Coursera via Capaciti, Dec 2024 (*completed*)
- **Excel to SQL** - LinkedIn Learning, April 2025 (*Completed*)
- **Power BI Essential** -Training LinkedIn Learning, May 2025 (*Completed*)
- **SQL for Data analysis**- LinkedIn Learning, April 2025 (*Completed*)

ST John's Collage, Mtata, 2017
Grade 12/ Matric

ADDITIONAL Info : Driver's License Code C1
